

SEABOURN®

BARBADOS AND ST. MAARTEN CRUISES

HEALTH AND SAFETY GUIDELINES

1. Prior to Travel

- Ensure that you understand requirements for traveling from your home country to the destinations you plan to visit (including air travel policies)
- Review the required testing and travel requirements for St. Maarten <https://stmaartenehas.com/travel-requirements/> or Barbados <https://www.visitbarbados.org/covid-19-travel-guidelines-2022>

Barbados embarkation:

- Complete and upload required documentation in the Barbados BIMSafe app at www.visitbarbados.org between 72-24 hours before travel

St. Maarten embarkation:

- Complete Electronic Health Authorization System (EHAS) application at <https://stmaartenehas.com/> no less than 12 hours before travel

2. Check In Online or via Seabourn Source App

- Download Seabourn Source App and/or complete online guest registration on Seabourn.com
- Complete and accept risk acknowledgment, vaccination attestation form and cruise contract
- Complete health questionnaire 72-24 hours before embarkation
- Get boarding pass and check-in time

3. Embarkation

- Show physical proof of vaccination
- Show proof of negative standard COVID-19 PCR test taken within 3-days of embarkation

4. Onboard

Masks are recommended on board but not required. We highly recommend guests wear a mask in the Grand Salon and other entertainment areas, casino, spa treatment rooms, youth activity centers and during any other congregate events. Masks are required to be worn during the entire embarkation and debarkation process, on transportation during any Seabourn organized shore excursion, on tenders to/from ports, and in the onboard Medical Center.

5. Shore Excursions

The ability for guests to go ashore in ports of call is controlled by the governments of the ports we visit based on their individual COVID-19 protocols and requirements, which are quickly evolving and being updated. All ports allow Seabourn shore excursions. Some ports may also allow tours sold by port-authorized third-party operators or independent tours and exploration. Please be aware that as destination conditions change, you may be required to take a shore excursion provided by Seabourn to go ashore.

Note: This is a summary document as of March 14, 2022 and subject to change.
